EXPERIENCE

State Farm Insurance, Bloomington, IL

May 2021-Present

Enterprise Technology Intern

State Farm Insurance, Bloomington, IL

May 2020-July 2020

Enterprise Technology Intern

- Collaborated with another intern to create a dashboard to house information about experiments related to customer insurance claims.
- Worked with the Angular framework to produce both the front-end design for the dashboard and the back-end logic behind it.

State Farm Insurance, Bloomington, IL

May 2019-August 2019

Enterprise Technology Intern

- Collaborated with a team member to create a web app to resend an email registration invite, eliminating the need for users to call in to receive their registration email.
- Assisted in the modernization of a company website, through various back end java updates and front end web development work, enabling users to navigate through the site more efficiently.

State Farm Insurance, Bloomington, IL

June 2018-August 2018

Enterprise Technology Intern

- Constructed a web application which displayed a resume to learn basic web development skills.
- Improved my understanding of an agile team through participation in agile ceremonies including daily standups and sprint planning.

State Farm Insurance, Bloomington, IL

June 2017-August 2017

IT Student Intern

- Assisted with the deployment and maintenance of virtual applications and desktops which resulted in an increase in team productivity.
- Evaluated the use of in-house virtual desktop kiosks to phase out unused devices, minimizing the time developers must spend maintaining these devices.
- Oversaw a session of a junior high coding camp in HTML and CSS.

TECHNICAL SKILLS

Languages: Python, R, Java, SQL, C#

Frameworks/Packages: SciKit-Learn, Keras, SciPy, OpenCV

Web Development: Angular framework, HTML, CSS

Miscellaneous: AWS EC2 and S3, Unity Game Engine, Microsoft Office Suite
